Love's Journey

Beyond the Portal of Death & Bringing Back the Heart

Internationally and nationally known Near Death Experience (NED) researcher and author shares her almost 40 years of findings and her latest book **Dying to Know You: Proof of God in the Near Death Experience**. A presentation of 40 drawings from children and adults in six countries, who died and then came back, depict to the best of their ability what they actually saw and experienced on The Other Side of death. This book is the only one of her more than 15 published books, that contains thousands of voices of those who passed **Beyond the Portal of Death**, telling their experience – the collective speaking as a collective – the sum of many. Nearly 4,000 child and adult experiencers are represented. **LOVE'S JOURNEY and Bringing the Heart Back**: Those who experience life beyond death come back filled with the unconditional love they found there. In expressing this love they run into one challenge after another. Their attempts to show that love, spread that love, are misunderstood at best. The puzzle of unconditional love, what it is and how it works, is explored. Once we understand the differences between what we think love is and what love really is, we begin to broach the deeper depths of existence, the heart and who we are. **Stunning new discoveries about the heart organ and DNA change what we thought we knew.**
