

GOLDEN CROSS

Anything not created with Love & in Love is an incomplete creation.

Symbols are light codes and information carriers.

New codes are being introduced into the earth matrix at this time

- Received 3.2010, name given 6 months later. Held until the timing was conducive for it's introduction
- These geometric systems give unseen structure both within/without
 - *internally – they build us from the inside out
 - *externally – they shape the unseen to it's system
- Geometry provides the form in which spirit creates
- Phi ratios and only phi ratios
- Golden proportion paired infinity symbols
- This geometric system will continue to unfold as will the others; note your personal experience
- Brings balance and harmony; at same time is an activator
- Have seen translucent golden masculine/feminine energies (beyond gender) moving in and out of each other with fluid harmony
- Double double torus What's happening? I don't know yet
- Centers in human body – as within/so without; as above/so below; macro/micro
- Always returning to home 'X'
- Can replicate, expand, contract as can all geometric forms
- Infinity loop – life cycles can't go too far as the course changes and reverses returning 'home' and then out again in the opposite direction
- Jumping tracks from inner to outer – like quantum jumping?
- Each holds the other in balance; embraces the other; balanced rotation cw and ccw; balanced speed
- Part of a multi-level system that gains acceleration as each is added to the Grace system
- Part of one unified system when all are in place. Each like the petal of the flower
- Moving in the etheric differently than we see physically – like elastic bands – CENTER PT pushing forward while horizontal pushing back and vice versa moving through each other - like flashing universes?
Creates a rhythmic heartbeat
- Signature song received

- It's home on State of Grace is in two places: opposite the Flower of Love sculpture it is the last of the inner circle of sculptures and 'flat' centered in the sacred circle. Here it is a both harmonizer & activator.
- Because they are interwoven there is more going on than I can see – more to learn
- It anchors, balances, harmonizes, stabilizes the State of Grace system containing all in it's centerpointe
- System on the hilltop has not yet reached it's potential. 12.12 when the last is placed and labyrinth is in place and prayer flags are added it will begin to move in one unified system
- Eternal harmony
- Words heard:
 - 'Beyond time, beyond love'; 'We come together in the heart beat';
 - 'My center is always your home – Be in my center & you can travel anywhere safely'
- Names given: vertical -Elegance and Grace; horizontal – Simplicity and Beauty
- Poem/message

The Golden Cross

I am the Balancer, the Harmonizer

With Elegance and Grace
Simplicity and Beauty
I bring all to Centerpointe.

Holding Center I invite you
to move into and through
the portal of your heart system...

Wherever you desire to travel/Be
I am with you.
For wherever you go
Your Center is Grace.

We Come Together as One in the Heart Beat

You Sing Me
I Sing You

Information & understandings as received by Antonia Albano, Messenger of Love for ...sacred geometry for the new millennium™. These may be experienced differently by you.
